Friendship at C.A.P.

Fall at Greenbrier C.A.P. focused on many different themes, including giving thanks, sharing and caring, and friend fun. One activity that was a huge hit was making friendship bracelets. We learned a new way to make them using cardboard circles, taught other friends other ways to make them, and spent a lot of time simply enjoying being friends. Here are a few pictures of the fun!

Full Days at C.A.P.

Full Days are a fun way to spend days off from school. Since we are paired with Ivy Hill School, we get to meet new (and some old) friends. The field trips planned are often education and many times are to places that families don't usually visit. In November, C.A.P. went to SciTech (in Aurora), Putt Putt golf, and to see the new Disney movie Moana on opening day! Here are just a few pictures to see what we did at SciTech. Consider signing up for one of these fun trips…you can register online at ahpd.org!
