WISHING YOU HEALTH AND PROSPERITY IN 2017

Each and every day we are reminded of the important role the Park District and our partners play in the lives of this community.

The potential impact of a successful partnership between park district's, communities, schools and others is immense, with improved health, safety, social connectedness, fiscal responsibility, stewardship, shared resources and more, being possible outcomes of a very strong partnership. This year culminated in the completion of a Year I study commissioned by the Arlington Heights Health Action Alliance --- a multi-agency partnership, formed in 2015 to identify and target the community aspects that influence the health and fitness levels of youth ages 10 – 14 years in an effort to prevent obesity and support active living.

> *"Studies show that if a child is overweight or obese at this age, they are 80% likely to be overweight or obese as an adult. If not addressed, this trend can drastically negatively impact the overall health and the economy in a community."*

So, how did we do in terms of our physical assets? Here are a few summary findings:

- AHPD has a great distribution of parks and facilities throughout the District.
- Overall, 65% of 10-14 year olds have access to a neighborhood park within walking distance.
- There are opportunities to increase walking/biking activity and reduce screen time.
- AHPD has some areas that are unreachable independently by a child of this age group.

These findings are valuable to consider as we move forward with our capital planning efforts but in particular as a significant employer of our local youth.

- Chances are that either you, or a family member or friend has worked for the Park District. **More than 62%** of our employees live within the District.
- And we are extremely proud to provide important early work experience for younger adults in the area. In 2015, we e**mployed over 1,200 people** of which **59% were young adults under the age of 25.**

As a community-based organization we are increasingly looking for partners with which to collaborate to address complex issues. Rest assured however, that our most important partner is YOU – our residents. Best wishes for a wonderful holiday season and a Happy New Year.

Sincerely,

Maryfran H. Leno

WINTER FUN

AROUND ARLINGTON HEIGHTS

Ice Skating & Ice Hockey

Check for latest Ice Rink Reports online at ahpd.org. The Park District provides unsupervised ice skating and ice hockey rinks throughout Arlington Heights. Rinks are maintained at Heritage, Hickory Meadows, Patriots, Pioneer and Recreation Parks. All ice rink locations have free skating rinks. At Heritage, Patriots and Pioneer Parks, ice hockey rinks with boards will also be maintained.

The Park District warns everyone that neither ice skating nor sledding is allowed at Arlington Lakes Golf Club or at Lake Arlington. Ice skating is not allowed at the Nickol Knoll Golf Club. Conditions are never safe, regardless of extremely cold weather. The constant flow of water in these lakes does not allow them to freeze solid enough for skaters. No sledding near ice rinks. Park District personnel begin flooding. these rinks during the first prolonged cold spell (22-degrees or below for four to five days) after December 15. The rinks need to be flooded for a period of at least four consecutive days of temperatures of 22 degrees or below before they are ready for skating.

Why do park crews stop making ice on February 15 each year?

- Even on the coldest of winter days after February 15, the sun's warm rays begin melting the darker colored ice. As the days get longer, the sun's angle becomes more direct and much Warmer. Ice made during the overnight hours begins a slow• and gradual meltdown and ice cannot be sustained.
- **Hockey rinks** are most vulnerable to this melting because the dasher boards along the perimeter absorb a great deal of the sun's warmth. The sun warms the dasher boards and they radiate that warmth back to adjacent ground melting the ice adjacent to the boards. This heat buildup also prevents new layers of ice from forming adjacent to the boards.
- Finally, nighttime temps in late February are not typically cold enough to support formation of multiple layers of ice. While most late February evenings are below freezing, ice making at temperatures just below freezing often requires several hours before the warm 55-degree water from the hydrants freezes and forms a new layer of ice. Unable to make multiple ice layers nightly; ice-making efforts become futile.
- *If you have questions related to skating feel free to contact, Brian Meyer, Director of Recreation and Facilities at 847.577.3009.*

Sledding

Unsupervised sled hills are located at Heritage, Green Slopes, Sunset Meadows and Nickol Knoll Parks. Only plastic sleds and tubes are allowed. Use of sleds •with wood or steal is prohibited. Snow boards are not allowed at these sled hills. Sledding at all sites is at your own risk.

- At **Heritage Park,** the sled hill features an open sledding area. The hill is lighted.
- At **Green Slopes, Nickol Knoll and Sunset Meadows Park**s; the sled hills feature large, open areas. The sled hill at Green Slopes is lighted.
- **Sledding at Nickol Knoll** is allowed only in the designated area• east side of Park near ball diamond. Look for the sign marking the proper location. (SN)

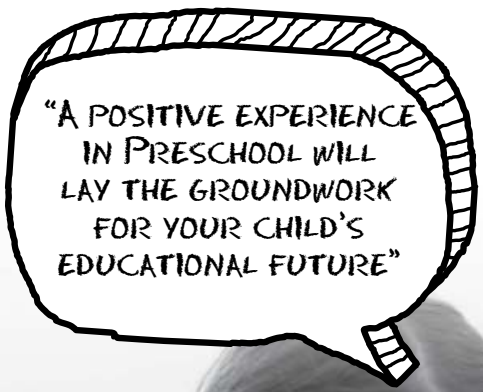
PRESCHOOL

PREPARING THEM FOR WHAT'S NEXT.

ABOUT THE PROGRAM:

The Arlington Heights Park District preschool program provides age-appropriate curriculum to develop a child's love of learning. Our play-based curriculum is provided in a safe, nurturing environment which allows the children opportunities to grow socially, emotionally, intellectually and physically. Children participate in a variety of activities everyday including art, music, movement, dramatic play, math, science, block play, story time and group discussions. With the guidance of the area school districts, we strive to prepare children for kindergarten. Our program is designed to give your child the tools and experiences they need to assure a positive transition from preschool to kindergarten. Some ongoing skills emphasized throughout our two-year program are recognition and printing of first name with upper and lower case letters, naming basic colors and shapes, finding upper and lower cases letters when named, and reciting numbers 1-20.



ABOUT THE INSTRUCTORS:

Skilled professionals schooled in early childhood and/or elementary education, teach the preschool program. Our instructors are kept informed of current trends in education by attending early childhood workshops and conferences throughout the year. Our teachers help the children develop new interests, learn good work habits, follow directions, socialize, share, and establish self-direction.

- Children in preschool must be toilet trained; pull-ups are not allowed.
- Children in the 3-4 year old program must be 3 by September 1; those in the 4-5 year old program must be 4 by September 1. Proof of age is required at the time of registration. Please bring a birth certificate to registration.

MUSEUM PROGRAMS

Girl Scout World Thinking Day

Each year on World Thinking Day, girls participate in activities and projects with global themes to honor their sister Girl Guides and Girl Scouts in other countries. The theme for World Thinking Day 2017 is "Grow." Thinking Day not only gives girls a chance to celebrate international friendships, but is also a reminder that Girl Scouts of the USA is part of a global community-one nearly 150 countries with Girl Guides and Girl Scouts. Join other girl scouts in our community as we learn about how our contributions affect women worldwide, as well as participate in activities that will help us close those international gaps. (LS)

FOR YOUR SAFETY

The use of cell phones, cameras and other recording devices are prohibited in all Arlington Heights Park District locker rooms and bathrooms. Please report any suspicious behavior. Thank you for your cooperation.

Pool Closing Policy

The following conditions may warrant closing of the pools at Olympic Indoor Swim Center:

- **Severe weather-** Olympic will be closed if severe weather is imminent. Staff will always proceed with caution for participant and staff safety.
- **Fecal accidents-** staff will follow rules established by the State of Illinois when determining how long the pool needs to be closed after a fecal or vomit accident. You can help prevent this type of closure by ensuring your child is wearing the proper swimming diapers.
- **Mechanical problems.**

Use of Floatation Devices

Your child's safety is our highest priority. For swimmer safety, floatation devices such as inner tubes, rafts, water wings and foam noodles are not permitted in the pools. Swimsuits with integrated floatation devices are also not permitted. US Coast Guard TYPE III approved life jackets are allowed. We have a limited number available for use. Life jackets do not make a child drown-proof. Children in life jackets must be supervised by an adult at a maximum of arms length reach at all times when in the water. Children in life jackets are not allowed to go down slides or off the diving boards. There is no substitute for adult supervision.

LESSON INFORMATION

First Day of Lessons:

It is important for parents to attend the first day of the session for swim lessons to find out how the lessons operate and who to speak with if you have questions. On the first day of class, participants find out who their instructor is, who the Lesson Coordinators are, and the general operation of the lesson program for that particular pool. You will be able to pick up a parent letter, which has a listing of any conflict dates for your convenience. You will also be able to pick up a parent packet which has a detailed listing of all the skills that are taught in Water Babies through Swim School.

Advancing Levels:

Participants can advance levels in Junior Swim School, Swim School, and Semi Private Swim School. Participants can move from Junior Swim School to Swim School during a session. Participants are evaluated by a lesson coordinator periodically throughout the session. There is no magic number of how many times a child will be tested. It is an unreal expectation to test every participant every day. The lesson coordinator discusses the daily lesson activity with the swim instructors prior to class and reviews the class sheets to plan their evaluations for the day. Every day is different and there is not a set pattern in how evaluations are done. It is never our intent to frustrate participants or parents. Our goal is for the participant to learn and have fun.

How the wait lists are handled for swim lessons?

If you are placed on a wait list for a swimming class, we will do our best to get you into that class. Many times prior to the class starting a registered participant or two may refund out. If and when that happens we will automatically move in the next person on the wait list and follow that up with a phone call to make sure that you still want the spot. If space is not made from refunds, we may try to expand the class. To expand a class we have to ensure that we have enough instructors to meet the required ratios and that we have enough pool space. Many classes run at the same time as others and we need to be careful not to over schedule pool. Lastly, if we are not able to accommodate you prior to the class starting, we will keep you on the wait list for at least two days of the class to see if another participant refunds out to make the space for you. Typically we will clear the waitlist after the third day a class meets. If you want to be removed from the wait list prior to the third day a class meets, please call our staff at Olympic Indoor Swim Center, 847.577.3025, so we can process that for you.

Questions or Comments:

During every swim lesson there is one Lesson Coordinator responsible for the supervision of the day's activities. In addition, there may be one or two Aquatic Leaders on duty to assist in the administration of the swim lesson program. Please direct any positive or critical comments to these key staff. We hope your experience is always positive, but if not, please do not hesitate to talk with these staff about your concern. It is much easier to address an issue and fix it on the spot, compared to the end of the session. You can also contact the Aquatic Program Supervisor at any time, Alli Bergquist 847.577.3047.

POWER OF PLAY

HAVE WE MADE AN IMPACT ON YOU?

I'm a park & rec kid

"Children who grow up utilizing their community park and recreation resources have the opportunity to thrive as both children and adults. These "Park and Rec Kids" grow up engaging with nature, learning social skills on the playground, creating life-long healthy habits, cultivating sportsmanship through rec sport leagues and so much more."

As part of National Recreation and Park Association's 50th Anniversary, they launched the *I'm a Park and Rec Kid*™ campaign — a viral social media campaign asking everyone to share their "Park and Rec Kid" story and challenge others to get out to their local parks and rec and share their own story. The goal of this campaign is to inspire youth and people of all ages to use their parks and recreation as a solution for happier, healthier lives.

From the mom who takes her kids to the same park she grew up in to a professional baseball player who got his start swinging at pitches in the local rec league, we bet everyone has their own story about being a "Park and Rec Kid." *Do you have a "Park and Rec" story to share?* Visit www.ahpd.org online to tell us how you or your family has benefitted from your local park and recreation provider.

HERE'S HOW TO TELL YOUR PARK AND REC KID STORY ONLINE!

Think about your experiences in parks and recreation when you were younger or today. Maybe you went to the park for family picnics, played basketball at the rec center or learned to swim at the public pool. Whatever it is, you probably have a park and rec story! How did it shape you? Tell us online at www.ahpd.org.

THE POWER OF PLAYING EVERY DAY.

In a recent nation-wide study, commissioned by the National Park and Recreation Association (NRPA), Americans agree that conservation, health and wellness and social equity are important priorities for local recreation and park services. The study helps all park and recreation professionals to better understand how the American public perceives the benefits and value of their local park and recreation services.

NOW OPEN

SMASHING RENOVATION NOW AVAILABLE FOR VIEWING AT HTC.

WE ARE EXCITED TO ANNOUNCE THAT THE NEWLY RENOVATED HERITAGE TENNIS CLUB IS ***NOW COMPLETE.***

The upgrade and expansion improved accessibility to the club and courts, included a new entrance and lounge area, new locker rooms, enhanced energy efficiency with new HVAC and lighting, as well as now offers a co-ed sauna, and a large activity room for exciting new programs and rental use.

Since 1987, Heritage Tennis Club has been home to eight indoor courts with state-of-the-art lighting, but this was the Club's FIRST MAJOR RENOVATION since it opened.

Heritage Tennis Club has been recognized by United States Tennis Association as "Outstanding Tennis Facility of the Year" in 1991; Western Tennis Association as "Member Organization of the Year" in 1993; and by the Chicago District Tennis Association as "Facility of the Year" in '09.

"This upgrade is exactly what our membership and participants wanted, and we are very appreciative for their patience during the year-long renovation. Heritage Tennis Club will continue to be the place where, "We're all about tennis". And, these modern upgrades now make our facility one of the premier facilities for members both on and off the court."

CHRIS NISBET, HTC MANAGER

YOUTH

QuickStart: Red Ball 1

Red Ball Classes are designed for kids who are new to the game of tennis or are unable to rally with ease. The lighter low compression red ball is slightly larger and has 25% the bounce and weight of a normal tennis ball. Red Ball QuickStart tennis takes a new and better approach to introducing kids to the game of tennis by using a smaller 36-foot court, smaller racquets and a ball designed to develop proper techniques. Kids will have REAL fun playing REAL tennis! (KH)

Consistent rallying from the baseline and introduction of spins and slices, along with strategies of winning patterns of play will all be started. Fitness is very important to the individual hoping to progress with their tennis at this level, so on court fitness will be introduced. (KH)

ACADEMY PROGRAM

Forest View is excited to offer the Academy Program for competitive junior players. Learning perfect strokes is a worthy goal, but only if they can help you win the point. Tennis cannot be learned in a classroom, so students in the Academy Program should expect to hit more than listen. Competitive experiences are not the test of your achievement. They are simply part of the process of learning to compete. The focus of training in the Academy Program will be on teaching players how to apply their individual skills to various levels of competition.

Requirements for participation in the Academy Program are:

- Forest View Junior Membership
- Pro Placement is required for Academy Classes
- Competitive Play (Tournaments, High School Teams, Junior Match Play Program)

For information on placement in the Academy Program please contact Assistant Program Manager, Jason Stanislaw at 847.640.2574 or jstani2836@yahoo.com

NORTH SCHOOL PARK: TAKING PHOTOS

North School Park; located at Eastman Street and Arlington Heights Road is one of the District's premier parks. The central feature of this beautiful area is the Virgil K. Horvath Fountain. The fountain is operational from mid-April through late October and is a prime location for wedding, prom and special occasion "picture-taking." *If you are interested in taking personal photos in this area here are few simple guidelines*:

- No appointment or permit is needed to take personal photos in the park. However, the park is rented out for wedding ceremonies and large special events are offered by the Park District throughout the year. Please call the Administration Center at 847-577-3000 to confirm park rentals and events.
- Typically during the summer months; more than one wedding party or group may be in the park; please be patient as you wait your turn for whatever area you are interested in taking pictures.
- If there is a wedding ceremony rental in the park; a Park District supervisor will be on duty and you may be asked to leave a particular area or wait to take photos while the rental is accommodated.
- Please remember whether you rent this facility or are just stopping by to take pictures; this is a public park and other activities may be going on at any given time.
- If you are a business or for profit commercial company and wish to take pictures in North School Park a permit is required; please call 847-577-3000 for information.

SAFETY TIPS

RECOMMENDED SAFETY TIPS FOR CHILD DROP OFF AT PROGRAMS

Listed below are several safety guidelines the Park District encourages parents to follow when dropping their child(ren) off at a Park District program.

1. Parents are encouraged to please escort children to and from the building, pool, field, outdoor tennis court, etc.
2. Parents are encouraged to take their child directly into the class or activity area.
3. Parents should try to stay with their child until the instructor arrives/ begins the class.
4. On occasion an instructor may encounter an emergency or an unexpected situation which causes them to be late or miss a class. If this occurs, the instructor notifies the program supervisor as quickly as possible and the supervisor addresses the situation as quickly as possible.

If a parent finds that an instructor has not shown up for a program, please contact the Park District Administration Center at 847.577.3000 during regular business hours Monday-Friday, 8:30 am-4:30 pm or contact an onsite supervisor at the facility immediately.

DELIVERY

HOW IS THE PARK DISTRICT PROGRAM GUIDE DELIVERED TO RESIDENTS?

The Arlington Heights Park District uses a door to door service to deliver the guide to residents prior to each program session or four times per year.

Why choose a delivery service over bulk mailing through the Post Office?

There are several reasons:

- The benefit of the delivery service is a significant cost savings over mailing. It also allows us to target delivery to Park District residents.
- The amount of time needed to deliver the Guide through the delivery service is 1-3 days.
- Through the post office, the requirement for bulk mailing is 10-12 days.
- Because the service indicates delivery in three days, we can find out in a timely manner those households that did not receive a Guide and re-deliver sooner.

It is important to understand whatever the method of delivering the Guide; there is the potential for missed deliveries.

It is our goal to minimize the number of non-deliveries and work with the delivery service to identify where problems occurred and to improve the service. Our #1 priority is to make sure those individuals and families, who want the Park District Program Guide, receive it.

WHAT IF I DON'T RECEIVE A PROGRAM GUIDE BY THE DELIVERY DATE?

We would like to know as soon as possible if you do not receive a Guide. The Program Guide is also available online at ahpd.org and you can pick up a copy of the brochure at any Park District facility after the delivery dates.

Guide	**Delivery Date (Saturdays)**
Spring 2017	January 21
Summer 2017	April 15

Please mark your calendar and if you do not receive a Guide delivered near your front door or porch by the date indicated above; call 847.577.3003, ext 5353.

We consistently work with the service for front door/ porch delivery; however on occasion the guide may be delivered in your driveway.

There are three other options if you do not receive the Guide by the delivery date; you may stop by any Park District facility or view the new interactive guide online at ahpd.org. You may also print the guide from a pdf file located on the Park District's home page.

We hope this article provides you with additional information on how the Program Guide is delivered and the process to follow for re-delivery.

Non-residents: Bring your completed registration form to any community center or Administration Center on or after December 14. Non-resident registration begins at 10 am. Non-resident registrations received before this date are held and processed beginning December 14. Please allow 7-10 business days for refund processing.

If a participant is not completely satisfied with a class, you are entitled to a full refund or to repeat the class at no charge (if openings are available). HOLIDAY LIGHTS

AT NORTH SCHOOL PARK

An Arlington Heights tradition. Stop by with the family between November 25 and January 6 and be whisked into a winter wonderland.

With over 80,000 lights adorning whimsical displays, it makes for the perfect backdrop for keepsake holiday photos and creating warm family memories.

The park district continues to make transformations of their own as they remain committed to their goals of sustainability and energy efficiency. LED lights continue to be used this year to brighten even more displays than last year. Every year the Arlington Heights Park District transitions more lights creating a "greener" holiday tradition.
