

Don't Tell Secrets In The Garden. Why? Because The Potatoes Have Eyes, The Corn Has Ears, And The Beanstalk! Author Unknown

A lot of thought and hard work goes into cultivating a happy garden.

And it's starting to pay off!

Remember:

- Store your hose in your plot- not in the aisle. Mowing crews and gardeners will appreciate a tidy path.
- Weeding and planting go hand-in-hand. Keep your weeds down and your neighbor will be thankful.
- Keep buckets upside down so rain water does not collect and promote mosquito habitat.

Herb Risotto Cakes

Form risotto cakes with fresh garlic, chive, and parmesan cheese. Coat first with flour and then beaten egg. Gently turn cakes in breadcrumbs so entire cake is coated. Remove cake and fry in a little vegetable oil for about 5 minutes each side.
