

Build new green to right of existing green. This will allow room to add mounding left of green and provide more separation from road.

Remove Cottonwood trees.

Remove all trees except Oaks, grade area, add drainage, and new trees. Adjust fairway away from road.

Remove 15 Cottonwoods trees to open up right side of fairway to make hole more playable.

Relocate cart path and adjust tees to align with fairway.

Hole No. 4  
Par 4
