

**Frontier Rain Barrel**

# July Garden News 2024

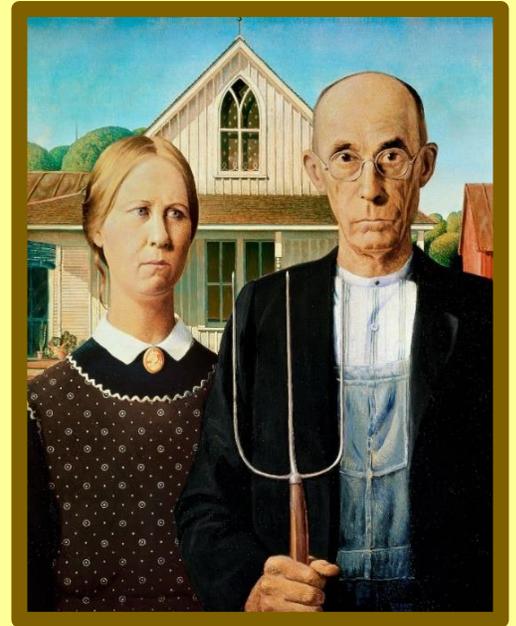

.....ahhh, it summer thyme!

Water is integral to a successful garden. And this season has seen an abundance of rain water and unfortunately, ground water. Both garden sites experienced leaky pumps and while we were able to replace pumps at Forest View, the center pump at Frontier will be changed out in the fall. We thank all gardeners for their patience and Mother Nature for providing 3 1/2 inches of rain this month! So Far!!
